CONTENTS OF VOLUME 77

No. 1, July 1989

C. M. Wood, S. F. Perry, P. A. Wright, H. L. Bergman and D. J. Randall (Canada): Ammonia and urea dynamics in the Lake Magadi tilapia, a ureotelic teleost fish adapted to an extremely alkaline environment 1

D. C. Poole and O. Mathieu-Costello (U.S.A.): Skeletal muscle capillary geometry: adaptation to chronic hypoxia 21

J. Geiser and D. C. Betticher (Switzerland): Gas transfer in isolated lungs perfused with red cell suspension or hemoglobin solution 31

M. A. Martins, P. H. N. Saldiva and W. A. Zin (Brazil): Evoked bronchoconstriction: testing three methods for measuring respiratory mechanics 41

B. L. Brizzee and B. R. Walker (U.S.A.): Chronic propranolol attenuates hypoxic pulmonary vasoconstriction in conscious rats 55

M. Meyer, H. Rieke, C. Hook and J. Piiper (F.R.G.): Helium and SF_6 washout from dog lungs during high-frequency ventilation 65

W. Kinnear, T. Higenbottam, D. Shaw, J. Wallwork and M. Estenne (Belgium): Ventilatory compensation for changes in posture after human heart–lung transplantation 75

F. G. Burton, J. M. Stevenson and S. G. Tullett (U.K.): The relationship between eggshell porosity and air space gas tensions measured before and during the parafoetal period and their effects on the hatching process in the domestic fowl 89

M. A. Asson-Batres, M. K. Stock, J. F. Hare and J. Metcalfe (U.S.A.): O_2 effect on composition of chick embryonic heart and brain 101

H. Pagel, W. Jelkmann and C. Weiss (F.R.G.): O_2-supply to the kidneys and the production of erythropoietin 111

W. J. Federspiel (U.S.A.): Pulmonary diffusing capacity: implications of two-phase blood flow in capillaries 119

No. 2, August 1989

H. Shams and P. Scheid (F.R.G.): Efficiency of parabronchial gas exchange in deep hypoxia: measurements in the resting duck 135

M. E. Deffebach, P. Agostoni, W. Kirk and S. Lakshminarayan (U.S.A.): Pulmonary artery infusion of prostacyclin increases lobar bronchial blood flow 147

T. Inoue and M. S. Kannan (Japan, U.S.A.): Platelet-activating factor-induced functional changes in the guinea pig trachea *in vitro* 157

R. Takeda, A. Haji and T. Hukuhara (Japan): Diazepam potentiates postsynaptic inhibition in bulbar respiratory neurons of cats 173

D. Zhou, W. M. St. John and D. Bartlett, Jr. (U.S.A.): Activities of pulmonary stretch receptors during ventilatory cycles without lung inflation 187

L. M. Oyer, S. L. Knuth, D. K. Ward and D. Bartlett, Jr. (U.S.A.): Reflex inhibition of crural diaphragmatic activity by esophageal distention in cats 195

S. C. Gandevia and G. Macefield (Australia): Projection of low-threshold afferents from human intercostal muscles to the cerebral cortex 203

S. Iscoe and R. Bush (Canada): Responses of pulmonary slowly adapting receptors to airway occlusion in cat 215

M. S. Jacobi, C. P. Patil and K. B. Saunders (U.K.): The transient ventilatory response to carbon dioxide at rest and in exercise in man 225

M. R. Fedde, J. A. Orr, H. Shams and P. Scheid (U.S.A., F.R.G.): Cardiopulmonary function in exercising bar-headed geese during normoxia and hypoxia 239

R. B. Santolaya, S. Lahiri, R. T. Alfaro and R. B. Schoene (U.S.A., Chile): Respiratory adaptation in the highest inhabitants and highest Sherpa mountaineers 253

No. 3, September 1989

K. E. Longworth, J. H. Jones, J. E. P. W. Bicudo, C. R. Taylor and E. R. Weibel (U.S.A., Switzerland): High rate of O_2 consumption in exercising foxes: large P_{O_2} difference drives diffusion across the lung 263

W. J. Hornof, E. Schelegle, M. Kammerman, R. A. Gunther, P. E. Fisher and C. E. Cross (U.S.A.): Ozone-induced accelerated lung clearance of ^{99m}Tc-DTPA aerosol in conscious sheep 277

I. Rubinstein, S. J. England, N. Zamel and V. Hoffstein (Canada): Glottic dimensions in healthy men and women 291

S. Matsumoto (Japan): Effects of ammonia and histamine on lung irritant receptors in the rabbit 301

J. F. Hallam, T. J. Dawson and R. A. B. Holland (Australia): Gas exchange in the lung of dasyurid marsupial: morphometric estimation of diffusion capacity and blood oxygen uptake kinetics 309

F. Lallier and J. P. Truchot (France): Hemolymph oxygen transport during environmental hypoxia in the shore crab, *Carcinus maenas* 323

N. H. West, A. W. Smits and W. W. Burggren (Canada, U.S.A.): Factors terminating nonventilatory periods in the turtle, Chelydra serpentina 337

S. F. Perry, R. Kinkead, P. Gallaugher and D. J. Randall (Canada): Evidence that hypoxemia promotes catecholamine release during hypercapnic acidosis in rainbow trout (*Salmo gairdneri*) 351

S. F. Perry and K. Kinkead (Canada): The role of catecholamines in regulating arterial oxygen content during acute hypercapnic acidosis in rainbow trout (*Salmo gairdneri*) 365

E. Agostoni, L. Zocchi and P. T. Macklem (Italy): Lung border sweep upon phrenic stimulation: dynamic fall in pleural liquid pressure 379
